- Selection of suppliers in collaboration with R&D
- Responsible for framework agreements, including audits, meetings, travel, negotiations, packaging, order sizes, prices, delivery, and payment terms within own portfolio
- Manage and / or participate in outsourcing projects
- Analyze and develop supplier performance
- Maintain and optimize procurement procedures and policies
- Maintenance of master data for purchased goods in Microsoft Dynamics AX
- Keeping abreast of market trends and adapting the strategy to own portfolio
- Provide commercial assistance to the organization, including assisting with development projects
- Initiate cost-reducing measures between suppliers and HARDI INTERNATIONAL A/S
- Project management related to the above tasks may occur

Your profile

- You have an educational background within engineering or economics
- You have experience with purchasing management and planning from a similar position in a production company.
- Min. 3 years procurement experience in steel or electronics industry
- You are familiar with the use and the benefits of forecasting and inventory management tools and theories
- You have good analytical skills and can identify critical situations when they arise
- Excellent knowledge of MS Office especially Excel, PowerPoint and ideally Microsoft Dynamics AX
- You can work across the organization and are quick to learn new things and can meet deadlines
- Result oriented
- Structured
- Open to change
- An excellent team player
- Effective communication skills at all levels
- Independent and able to plan your own work
- Outgoing
- Able to juggle different work activities and shift attention from one task to another
- Analytical

We offer
